

MODERNIZE PAYMENTS INSIDE YOUR TRIBUTE / TRULINX SYSTEM

A Payment Solution Powered by Service First Processing

Service First Processing integrates directly with Tribute / TrulinX, allowing distributors to securely accept payments, automate financial workflows, and improve visibility across accounts receivable and accounts payable. Payments are processed directly within your existing system so your team can eliminate manual entry, reduce errors, and streamline operations.

Integrated Payment Processing

Accept **credit card** and **ACH payments** directly within TrulinX without switching between platforms.

Countertop & Mobile Terminals

Accept secure **in-person payments** directly connected to your Tribute / TrulinX system.

Automated Level II and Level III Data

Automatically populate enhanced transaction data to **reduce processing costs** and **improve efficiency**.

AR & AP Automation Tools

Tools that **streamline invoicing, payment tracking, approvals, and vendor payments** while improving financial visibility.

From onboarding through daily operations, our team provides dedicated support to ensure your payment solution runs smoothly within your Tribute / TrulinX system.

Value for Your Business

Payment Cost Optimization

Reduce processing costs through automated Level II and Level III data and optimized transaction routing.

Flexible Payments

Accept payments in person, online, or through invoices with credit card and ACH options.

Scalable Solutions

Solutions designed to grow with your business and support evolving payment needs.
